# WHAT IS 4 NEXT UNICORN?

4 Next Unicorn, it is a **initiative** and **investment** community that brings together entrepreneurs who have big ideas and never stop working decisively to bring their ideas to life, by providing solutions with a visionary perspective in all the areas that an initiative needs to be successful.

"The people who are crazy enough to think they can change the world are the ones who do."

Steve JOBS

Welcome to become a shareholder  
in the Unicorn of future!

# Problem

- In the age of technology, where digital changes every moment and future of life, as the world goes global, borders have disappeared. However; this has led to a decrease in resources and difficult access to resources.
- People are turning more and more to entrepreneurship every day. While they continue to develop projects to realize their dreams, leave their mark on the world and achieve freedom, the resources they need are monopolized, creating a new class and caste system.
- While everything in our lives is developing and changing, capital has not changed for centuries, in order to maintain its power and dominance and enrich its own future, it continues to limit the future of the majority.

More than 500 Billion Dollars were invested in startups in 2021.  
Only 85% of them were sent to 12 companies.

# Solution

- There are ideas in 4 Next Unicorn that will bring people to economic freedom. Benefit and value are at the heart of all the ideas we have.
- It is possible for people to gain their freedom by learning technology and digitalization.
- We implement integrated projects that we have developed in many interconnected sectors within a planned time. We are not limited to this, we offer the power of our community as a solution to entrepreneurs who need support in their entrepreneurial journey and we are experiencing the happiness of winning together.
- All that is needed for all this is a strong spark. We're creating this together.

There are entrepreneurs who believe that everything imaginable will happen in  
4 Next Unicorn.

There are investors in 4 Next Unicorn who put all the opportunities they have in front of the dreams that are waiting to be realized.

There is a **future** in 4 Next Unicorn, there is **profit** in  
the future..

# Process

- 4 Next Unicorn will create change in the ecosystem by changing the way entrepreneurs and capital work together through accessible, simple and social web3 technologies.
- 4 Next Unicorn, is a startup investment platform for everyone. There are not only a few wealthy accredited investors. It allows ordinary people to invest in highly vetted private enterprises with amounts appropriate to their financial strength.
- 4 Next Unicorn, will expand equity investing to the masses, giving everyone a chance to support the company that will be valued at the next billion dollars. It was created to democratize resource creation.
- We will attract private investors and funds by creating favorable and attractive conditions for the rapid development of our community.

# What is Stake?

Staking, is the process of keeping your cryptocurrencies locked in your wallet for a certain period of time to support the operations of a cryptocurrency chain, without spending or transferring them.

From these crypto coins that you have locked, you will earn reward crypto coins at certain rates during the period that you have locked.
